

SIEMENS

Siemens Technology to Business and Siemens PLM Software

Become a Frontier Partner

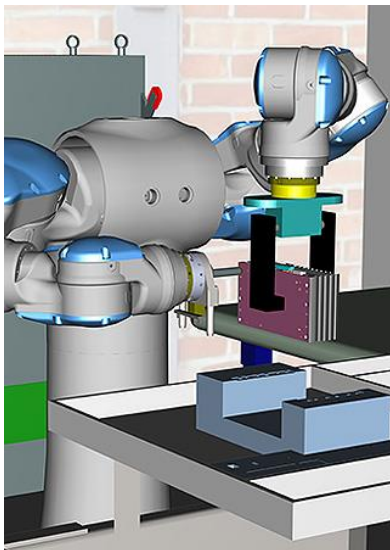

Build on industry-proven software

We're looking for great startup partners to help us make new manufacturing and production technology easier, more reliable, and scalable.

To help meet this challenge, we offer startups in **3D Printing** and **Robotics** free access to industry-proven software tools and components and developer resources:

- Technology
- Developer Support
- Marketing
- Funding Opportunities

Why partner with Siemens?

- Build on proven and scalable technology: Siemens PLM Software is a world-leading provider of product lifecycle management (PLM) software, systems and services
- Leverage well-established sales channels to get your solution to market faster and reach the industrial manufacturing market
- Become part of the Siemens leading partner ecosystem

Learn more about what we offer and apply online today!
